

Steady when it counts

API sourcing that keeps your production moving

Dependable global access

A trusted sourcing partner supplying customers worldwide with APIs for veterinary and human use. Long-term relationships and in-depth market knowledge ensure stable access, even when global supply chains are under pressure.

Compliant and transparent

Every batch comes with relevant regulatory documentation, and full traceability. Ofichem's certified, globally compliant network ensures complex sourcing is efficient, transparent, and secure.

Proactive and reliable

When markets shift or materials become scarce, our team moves fast. Through proactive alternative sourcing and supply chain risk management, we identify qualified alternatives, mitigate risks, and keep your production steady, so you can rely on continuity of supply, whatever happens.

- More than just an API supplier. We provide complete assistance and guidance that goes beyond logistics
- Extensive stock levels (300+ products) ensuring fast deliveries and security of supply
- Access to a global network of 250+ qualified manufacturers
- Trusted sourcing partner with over 50 years of industry experience, delivering market insight and long-term value
- GDP- and FAMI-QS certified supply chain

Straight to the solution

Reliable supply

Maintain continuity through dependable sourcing and clear communication.

Simplified compliance

Save time and reduce risk with transparent documentation and fully qualified suppliers.

Responsive partnership

Work with a proactive team that adapts quickly to changing markets and project demands.
