Repackaging and Distribution

Raw materials and low-volume compounding to fit around you

Flexible repackaging, certified delivery

Tailored GMP-compliant repackaging for APIs with batch sizes from 50mg to over 1,000 kg and turnaround times designed to fit your schedule.

Custom solutions for every format

Choose from small or large pack formats tailored to your specifications, and benefit from a portfolio of ready-to-use materials from approved manufacturers. We have capability for low-volume compounding and your large API portfolio.

Integrated storage and distribution

Fully traceable logistics ensure end-to-end visibility and smooth transitions between packaging, warehousing and delivery.

- GMP and GDP-certified repackaging and storage facilities
- Batch sizes from 50 mg to bulk across a wide range of APIs and excipients
- Full traceability backed by regulatory compliance with the Falsified Medicines Directive
- Integrated warehousing and logistics within the Ofichem Group
- Over 40 years' experience in compliant pharmaceutical distribution

Clear. Clean. **Compliant.**

Rapid release and re-analysis

Accelerate material readiness with compliant re-analysis and release testing that deliver flexibility and reliability.

Flexible formats

Flexible pack sizes ranging from milligram samples to production-scale quantities ensure efficiency and cost-effectiveness.

Trusted quality control

Accredited laboratory analysis and QA evaluation for every batch, delivering consistent quality, reliability and complete peace of mind.
